

URDANETA CITY UNIVERSITY'S COLLABORATION WITH LOCAL AUTHORITIES FOR INCLUSIVE URBAN DEVELOPMENT

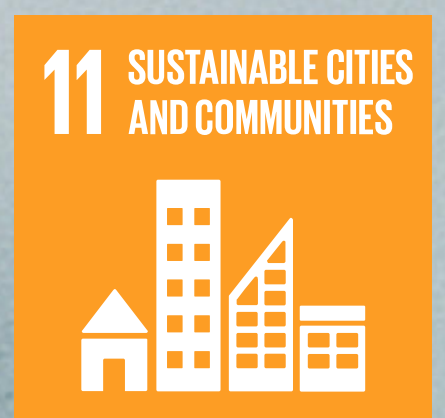

Urdaneta City University (UCU) actively collaborates with local government units (LGUs) and community planners to promote sustainable urban development and address local housing challenges. Through joint initiatives, consultations, and planning activities, the university contributes its expertise in research, education, and community engagement to help ensure that urban development projects are inclusive, resilient, and beneficial to all.

One of the university's key roles is providing academic and technical support to the city's planning programs, particularly in areas related to urban planning, environmental management, and affordable housing development. By engaging with the City Planning and Development Office, UCU helps identify suitable areas for housing projects and supports data-based decision-making to ensure that new developments meet the needs of local residents, including low-income families and students.

Additionally, UCU emphasizes community participation by conducting forums and outreach programs that involve residents in the planning process. These activities aim to raise awareness about sustainable urban living and strengthen the relationship between the university and the local community.

Through these efforts, Urdaneta City University demonstrates its strong commitment to Sustainable Development Goal 11: Sustainable Cities and Communities, by supporting local authorities in building inclusive, safe, resilient, and sustainable environments where every resident has access to adequate and affordable housing.

MAKE SDG#11 A REALITY

URDANETA CITY UNIVERSITY PARTNERS WITH LOCAL AUTHORITIES TO PROMOTE AFFORDABLE HOUSING AND SUSTAINABLE URBAN DEVELOPMENT

Urdaneta City, Pangasinan — Urdaneta City University (UCU) is actively partnering with local government units and community stakeholders to address urban planning and development challenges in the city, with a particular focus on ensuring access to affordable housing for local residents. This initiative aligns with the United Nations' Sustainable Development Goal 11: Sustainable Cities and Communities.

Through joint planning sessions, policy discussions, and community consultations, UCU provides research-based recommendations to support sustainable urban development. University experts in architecture, urban planning, and public administration work closely with local authorities to identify priority areas for affordable housing, improve land use planning, and ensure that community needs are reflected in development projects.

The university also engages with residents directly, gathering feedback and assessing housing requirements to help authorities implement solutions that are equitable and sustainable. These collaborative efforts aim to balance urban growth with the social and economic needs of the population, ensuring that housing opportunities remain accessible, safe, and affordable.

By leveraging its academic expertise and fostering strong partnerships with local authorities, UCU contributes to creating a city that is inclusive, resilient, and responsive to the needs of its residents. Through these initiatives, the university demonstrates its commitment to supporting sustainable urban planning and advancing SDG 11 within the Urdaneta community.
