

## COLLEGE OF ENGINEERING AND ARCHITECTURE ADVANCES SDG 4 THROUGH COMMUNITY EDUCATIONAL SHOWCASE

January 23, 2025 — In line with **Urdaneta City University's (UCU)** commitment to support **Sustainable Development Goal 4 (Quality Education)**, the **College of Engineering and Architecture (CEA)** conducted an engaging **community educational presentation** that highlighted the college's dedication to promoting inclusive and quality learning through public lectures and interactive demonstrations.

The event was led by **Arch. Albert Pascua**, the college's Extension Coordinator, together with faculty members and officers of the student organization. During the session, Arch. Pascua shared valuable insights about the **academic programs offered by the college** and the **promising career opportunities** available to its graduates in the fields of engineering and architecture.

Showcasing the spirit of innovation and applied learning, **students from the B.S. Electronics and Communication Engineering program** presented their **robotics projects**, demonstrating technological creativity and problem-solving skills. Meanwhile, **B.S. Electrical Engineering students** exhibited their expertise in **electrical transmission and power generation**, and **B.S. Architecture students** unveiled their **architectural building designs**, reflecting both artistic vision and technical proficiency.

This educational outreach served as an inspiring platform for young learners to witness the real-world applications of science, technology, and design. It also reinforced UCU's mission to **extend learning beyond the campus** by fostering community engagement and promoting lifelong learning.

Through initiatives like this, the university continues to **advance SDG 4** by empowering students and communities with accessible, high-quality education that nurtures innovation, sustainability, and global competitiveness.

MAKE SDG#4 A REALITY
