- Egyptian Journal of Forensic Sciences

In steadfast pursuit of the United Nations Sustainable Development Goal 4 (Quality Education), Urdaneta City University (UCU) continues to uphold its mission of providing inclusive and equitable access to quality education by offering free and open learning resources to its students. Through initiatives that ensure access to both physical and digital educational materials, UCU empowers learners to reach their fullest potential and promotes a culture of lifelong learning.

At the heart of this commitment is the Orata Library, named in honor of Dr. Pedro T. Orata, a pioneer in Philippine education. The library serves as a cornerstone of academic excellence, providing students, faculty, and researchers with free access to an extensive collection of resources. With over 32,000 volumes of books and more than 2,000 multimedia and e-resources, the library supports diverse disciplines and fosters independent study, critical thinking, and research innovation.

Complementing the library's physical resources, UCU also enhances accessibility through digital and online learning platforms. Students can freely access online lecture notes, digital references, and e-learning materials prepared by faculty members to aid their academic progress. These digital resources are available anytime and anywhere, ensuring that education remains uninterrupted and adaptive to modern learning needs.
